INTER-OFFICE MEMORANDUM

JUN 6 1983

Randy Lyman
Water Pollution Control Inspector

ATTENTION OF _____

DATE June 3, 1983
9:50 A.M.

DEPARTMENT _____

Re: Ron's Transmission (1910 N. National)

On this date I received a call from a Clifford VanNatta, who lives at 1221 E. Thoman, Phone #866-8168. He owns a number of pieces of property, one of which is 1213 E. Thoman. He indicates that Ron's Transmission backs up to (?) this property and that Ron's is, and has been for years, dumping oil, etc., out on their property and it is running over on his property. He was very belligerent with everything I said---indicating it was a runaround, nothing was going to be done. He was extremely difficult to talk with and no assurances on my part that we would check out placated him in any manner. He mentioned something about the fact that he had some time ago talked with the Health Department, and us, and something about sitting outside the City Prosecutor's office for some time waiting to talk with him. Are you familiar with this situation? There was considerably more to the conversation which I can fill you in on verbally if you'd like.

I assured him as best I could that we would check out Monday and that someone would be getting in touch with him.

1213 E. Thoman
